Human Capital of Ukraine: Accumulation and Modernization :  
monograph / Anastasiia Ilyina. – Kyiv: State University of Trade and  
Economics. – 2025. – 400 p.

ISBN 978-966-918-221-0

DOI: 10.31617/m.knute.2025-415

The monograph studies the issues of managing human capital development in stable and crisis periods under the influence of factors of investment in the development of the national innovation system. The general theoretical foundations of human capital development are analyzed, appropriate management methods are proposed, the peculiarities of the role of public authorities in the development of innovation institutions are considered, as well as the influence of the latter on the level of efficiency of public servants. Based on modern concepts, opinions of scholars in the field of human capital development management, and analysis of world experience, the latest theory of an effective innovation and investment mechanism for human capital development is revealed.

Intended for scholars in the field of economics, management and administration, IT, postgraduate students, higher education institutions, officials of public authorities, employees of innovation institutions, as well as for everyone who studies this issue.
